

West Kilbride Children's Garden: Growing All Year

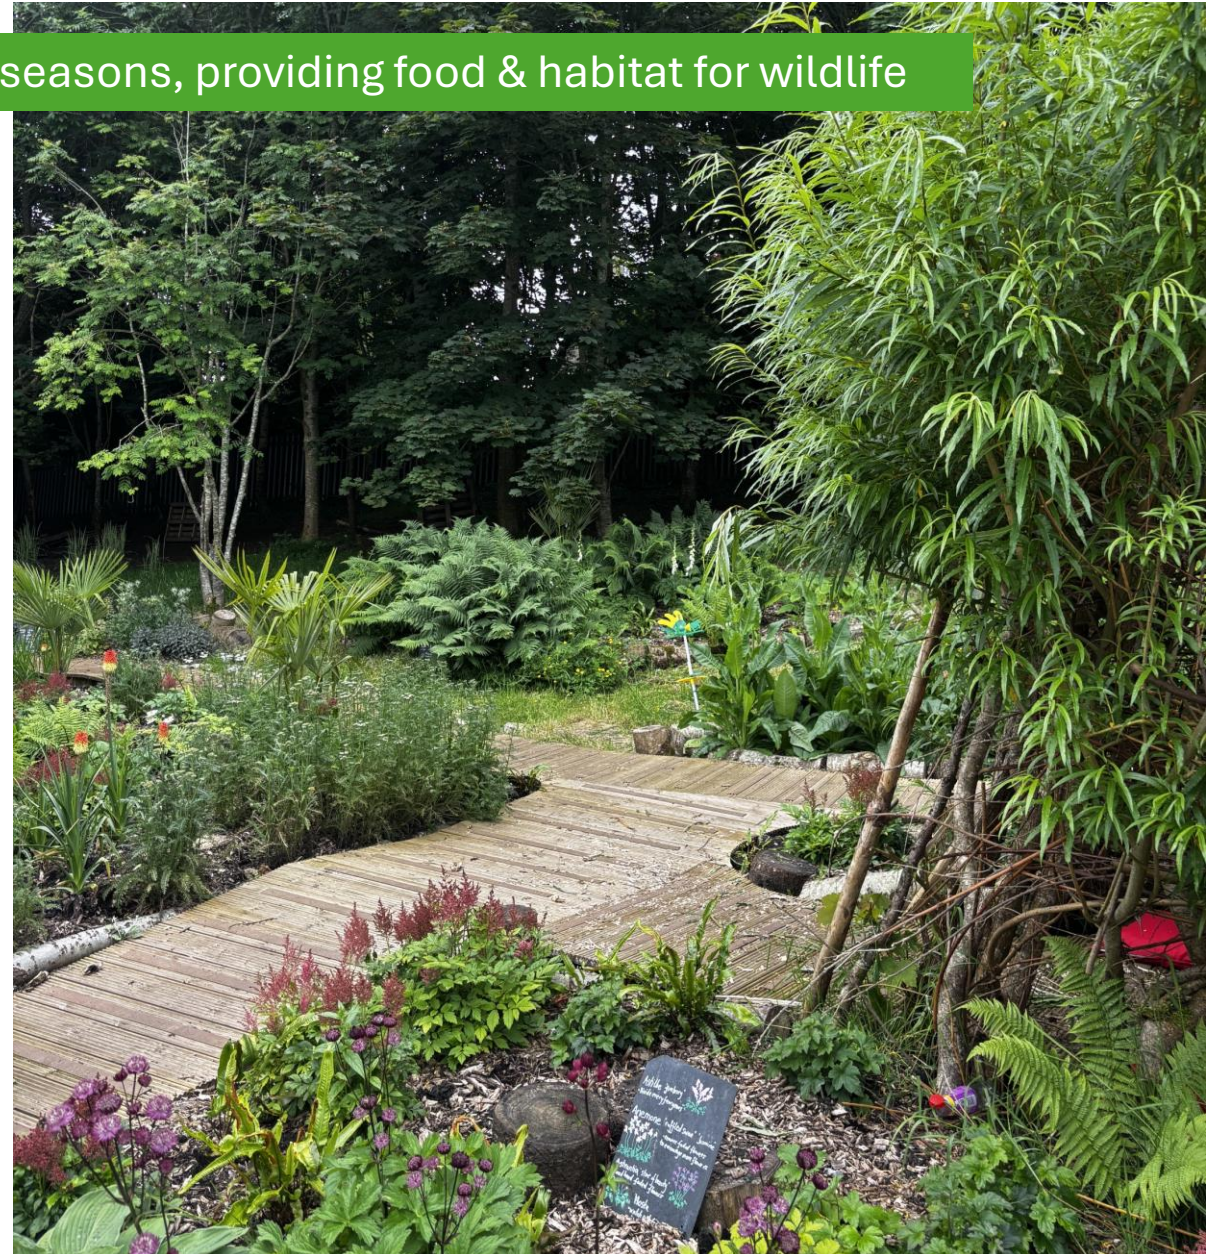

BEFORE: muddy, inaccessible area with little opportunity for children or the community to use the space.

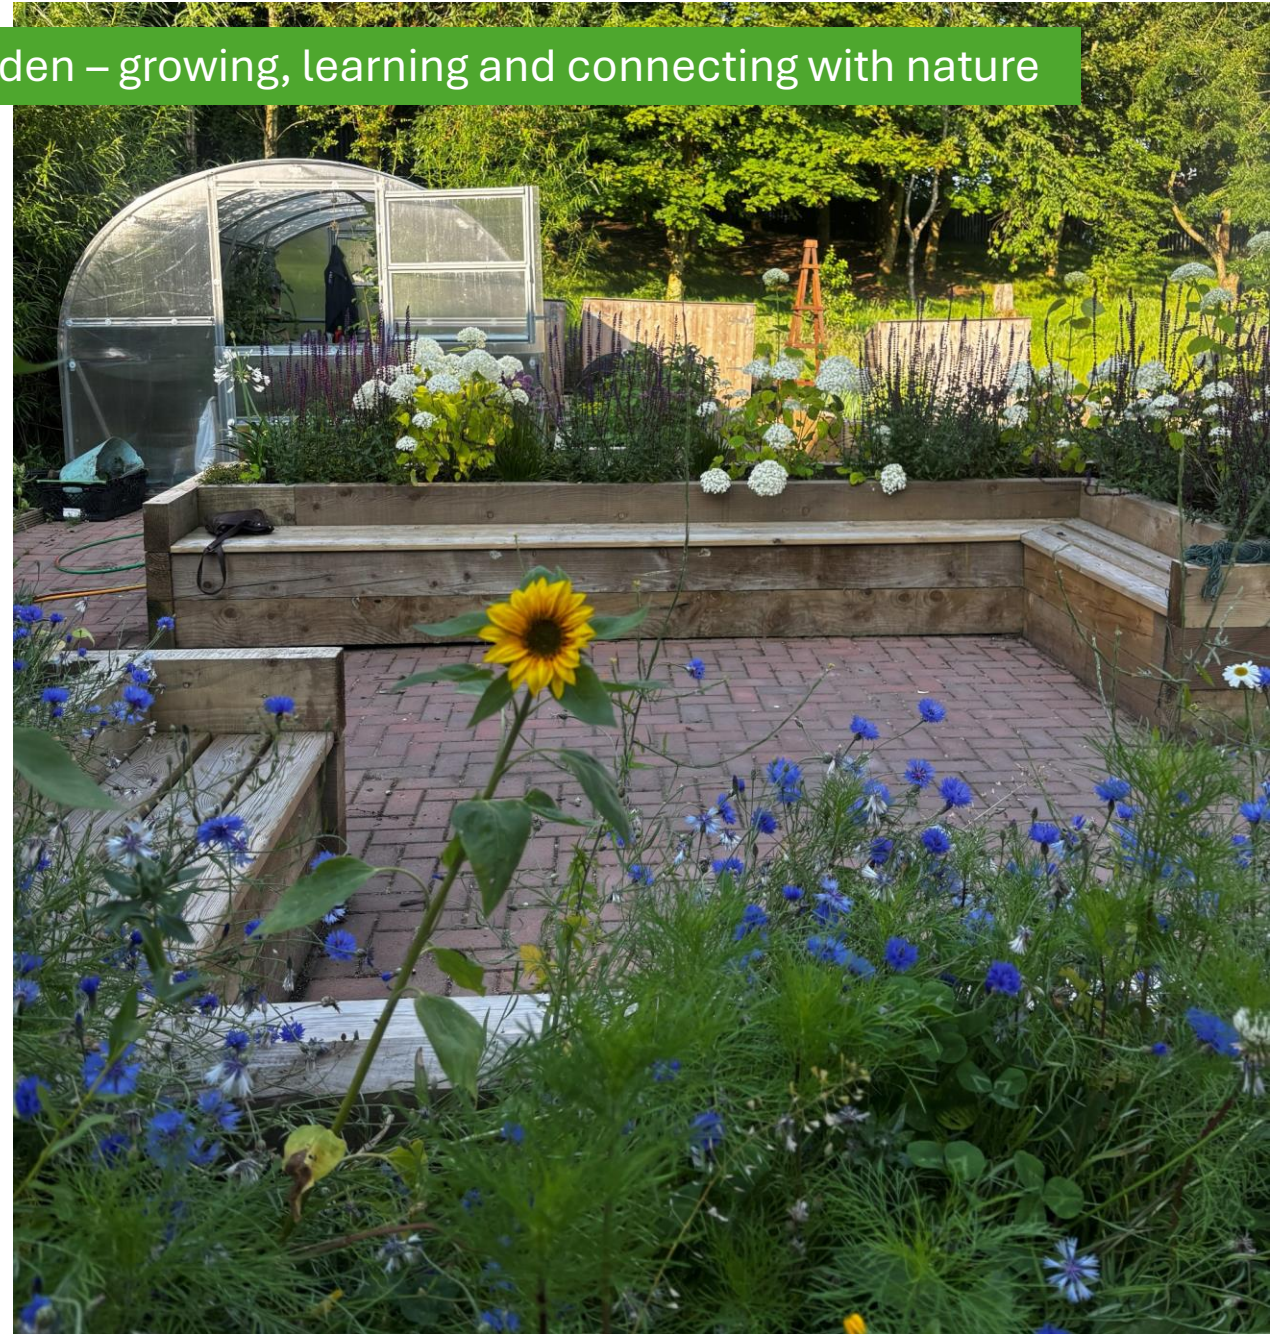

AFTER: an accessible garden walkway surrounded by diverse planting for people, pollinators & wildlife

AFTER: Building a biodiverse garden changing with the seasons, providing food & habitat for wildlife

From an unusable space to a thriving Children's Garden – growing, learning and connecting with nature

Children learning practical gardening skills and helping to care for their garden
